Doubling halving worksheets

9th, 10th, 11th, 12th, Higher Education, HomeschoolPage 2 (Online Math Practice) Correct answers 0 out of 0 Question In our practice areas, you are able to practice your math skills online with instant feedback. When you finish winning the test, you can see your results and print out your achievements. The levels of achievement are based on the correct percentage and time taken into account. Gold Awards are an outstanding achievement: 94% or more; Silver prizes are very good achievement: 85% or more; Bronze awards are a good achievement: 70% or more. As well as the interest question answered correctly, the prizes also depend on the time it takes to answer the questions! These quizzes are great... benchmarking against future progress or setting targets; class competitions; assessment of specific mental calculation skills. Quizzes can also be tailored to the specific skills you want to develop. Each test can be set to Individual or Class/Group mode. Individual mode When working in individual mode, you can: change the settings between each game to customize them to your needs; Click on the Results button to see what issues you get right and what your mistakes were; Print your results to show what you have achieved and try to beat your score next time. Class/group mode When working in group mode, you can: view the top 3 points of your group; Click on the Results button to see all the points for your group; easily organize your results so you can see who has achieved your learning goal and who needs more practice or support; Click the Reset button to get ready for the next player; all results and settings when you refresh the page. In group mode, you can't see how you answered each individual question— you can see only the results of the group. In group mode, settings are locked to prevent spraying. If you want to change the settings, then refresh the page in your browser - you will lose all your data when it happens! Please note: You must have Javascript enabled in your browser settings practice area to work. If you would like to help with it, please use the link below. Help me to javascript take a look at some more of our worksheets similar to those. Here you will find the selection of number line fraction worksheets. Using these pages will help your child: understand the party as a number. All free math pages in this section support elementary math criteria for grade 2. Fraction Math Worksheets - Understanding the side using this page will help your child: position fractions on the number line; understand the value of fractions and mixed numbers. All fraction worksheets to be printed in this section support the basic class 3 criteria. Fraction Number Line Worksheets Math Salamanders hope you enjoy using these free printable Math worksheets and all our other Maths and resources. We welcome any comments about our site or worksheet worksheet Facebook's comment box at the bottom of each page. Share this page freefreereport problemThis resource is intended for UK teachers.
